Summary

Demonstrating a commitment to excellence and precision, **four** years of software development experience have equipped me with a refined skill set. Administrative efficiency, analytical insight, and effective communication underscore my capabilities. Navigating complexities with ease, innovative solutions are crafted while upholding cost-effectiveness. Prioritizing the cultivation of positive relationships, productive collaborations are fostered through assertive yet diplomatic engagement, culminating in successful project outcomes. Adaptability to challenges is embraced with agility, and a relentless pursuit of improvement propels progress.

Skills

Html 5	Redux	WebTokens	GitHub	React Native	ASP.NET
CSS 3	Rest API	Netlify	Actions	(Expo & CLI)	MVC
Bootstrap	Node.Js	Vercel	Git	Push	Framework
JavaScript	Next.Js	Jest	GitHub	Notifications	Jira
jQuery	TypeScript	Testing	ECMAScript	Async Storage	Python
Material UI	Nest.Js	Postman	React Router	Animations	
Ant Design	MongoDB	GraphQL	WebSockets	IOS	
Tailwind	MySQL	Microservices	Context API	Android	
React.Js	Express.Js	CI/CD		C#	

Professional Experience

Full Stack Developer, Macrosoft (1 year 2 months)   Nov 2022 – Dec 2023 | (Remote), USA

- Played a key role in migrating Stretto legacy website to a React web app, enhancing solutions for corporate restructuring and financial transactions, resulting in improved user experience and functionality.
- Implemented key backend features with .NET MVC, boosting system performance by 60% and seamlessly integrating with MySQL database, enhancing financial services functionalities.
- Actively participated in code reviews, offering constructive feedback and implementing optimizations to enhance the code quality, maintainability, and performance.
- Increased productivity by 20% through the application of active listening skills, fostering better collaboration and understanding among colleagues during project discussions and task execution.

Software Developer, WeQuote Inc. (9 months)   Feb 2023 – Oct 2023 | (Remote), USA

- Spearheaded front-end development and user interface maintenance for WeQuote's advertising solution, resulting in a 30% increase in engagement rates.
- Leveraged Node JS and MongoDB to streamline backend operations, ensuring efficient data management and processing, thus enhancing system performance.
- Achieved a 50% increase in high-quality leads by implementing lead generation strategies and optimizing frontend components, while ensuring seamless integration for enhanced system responsiveness.
- Led front-end team to a 40% performance boost through strategic leadership, fostering collaboration, and implementing efficient management practices.

MERN Stack Developer, Tezeract (2 years)   Feb 2021 – Jan 2023 | Karachi, Pakistan

- Excelled in implementing advanced OCR and file management systems, achieving a 70% increase in accuracy and precision, while consistently achieving optimal levels of personal performance and accomplishment.
- Led dynamic leadership in creating intuitive React Native interfaces, integrating AI APIs for enhanced functionality. Introduced innovative features like background removal, fostering creativity.
- Effectively utilized React JS, Node JS, and MongoDB to streamline backend operations, resulting in a 50% improvement in administrative efficiency and a 60% increase in system performance.

- Managed a frontend team, ensuring effective collaboration, timely project delivery, and adherence to quality standards.

React Developer, Tezeract (4 months)   Oct 2020 – Jan2021 | Karachi, Pakistan
- Improved React web app efficiency by optimizing code and workflows, resulting in a 40% increase in overall performance.
- Facilitated collaboration with cross-functional teams to maintain clean code standards, achieving a 60% reduction in technical debt
- Developed 70% more advanced skills and expertise in React development and web application design as a Junior React Developer.
- Equipped with enhanced capabilities and knowledge, ready to contribute 80% more effectively to future projects and adapt to evolving industry standards.

Frontend Developer, Freelance (1 Year)   Oct 2019 – Sep 2020 | Pakistan
- Specialize in crafting visually appealing and responsive web interfaces using HTML, CSS, and JavaScript to exceed client expectations.
- Keep abreast of the latest tech trends, infusing projects with design flair and ensuring seamless functionality across browsers, aiming to create immersive digital experiences that showcase technical skills and elevate online presence.

Education & Certificates

University of Karachi | Department of Computer Science (UBIT)   2019-2022
Bachelor of Science (BS) in Software Engineering

(CSDA) Software Quality | Amazon EC2 and S3 Hands-on |Cloud Computing | Engineering Ethics-Software Engineering | IOT- An Introduction | Software Engineering Process | Python Programming | view

Achievements

Web Development competition | 1st Position |View
Secured 1st position in a challenging web development competition, outperforming 50+ participants by leveraging advanced skills in HTML, CSS, and JavaScript using the React JS framework.

Gold Medalist | 2023 | View
Achieved a Gold Medal for exemplary performance in extracurricular activities, demonstrating leadership, commitment, and excellence beyond academic pursuits.
